Updated Data ONTAP GX Pricing Bundles

A new FAS6080GX pricing bundle will be introduced in the May Quote Tool.

The existing FAS3040GX pricing bundle will be modified in the May 2008 Quote Tool to provide more flexible ordering of storage. Prior to May 2008, the FAS3040GX bundle included two controllers, software, and two disk shelves (144GB, 250GB, and 750GB drives only). Starting in May 2008, the FAS3040GX bundle will include two controllers and software only with the flexibility to select any supported disk shelf types and quantities.

NetApp will continue to offer the existing FAS3070GX pricing bundle in May 2008 with no changes from the bundle offered prior to May 2008.
