1. Summary

This product bulletin announces changes in CustomerEdge related to quotes of SnapLock® Enterprise (SLE) on Stretch and Fabric MetroCluster.

MetroCluster is a unique solution that combines array-based clustering with synchronous mirroring to deliver continuous availability and zero data loss at the lowest cost.

SnapLock software helps customers meet internal and external requirements for retaining, protecting, and accessing regulated and reference data with a flexible, integrated, and cost-effective solution.

SnapLock Enterprise on MetroCluster has been supported since Data ONTAP® release 7.3.1.1, but SnapLock is not currently supported with Data ONTAP 8.0.

2. What's New?

In the November Quote Tool release, SnapLock Enterprise will be configurable with Stretch and Fabric MetroCluster. Users will no longer have to purchase SnapLock Enterprise as add-on software. There is no change in the pricing structure.

Note: For MetroCluster with SnapLock Compliance (SLC), please open a PVR.

3. Sales and Customer-Ready Tools (Training, SE, Customer Presentations, Datasheets, Sales Guides)

Not applicable

4. System Requirements

Refer to the NOW™ (NetApp on the Web) site for the <[MetroCluster Compatibility Matrix](#)>
