8. Additional Information

1. Summary

NetApp Select™ software bundles are offered exclusively to NetApp worldwide channel partners. The benefits of these bundles include:

- Provide lowest NetApp list prices—25% to 50%+ less than equivalent individual pricing.
- Simplify ordering and quoting, avoid complicated PVR process.
- Save partners the time and hassle of matching multiple customer requirements to multiple products.

NetApp Select software bundles are available on FAS2000, FAS3100, and V-3100 systems.

NetApp Select Bundle	Components
Windows® Bundle	• CIFS protocol • Foundation Pack + Protection Pack + Application Pack
Server Virtualization Bundle	• NFS protocol • Foundation Pack + Protection Pack + Server Pack
Complete Bundle	• CIFS and NFS protocols • Foundation Pack + Protection Pack + Application Pack + Advanced Pack

2. What's New?

NetApp Select software bundles are being updated in the May 2009 Quote Tool. Updates to NetApp Select bundles include:

- All configurations of FAS2000, FAS3100, and V-3100 are now available via NetApp Select.
- New Windows, Server Virtualization, and NetApp Complete software bundles are available.

3. Sales and Customer-Ready Tools (Training, SE, Customer Presentations, Datasheets, Sales Guides)

For more information about NetApp Select software bundles, go to the [Field Portal](#) for the full list of new and updated product bulletins and documents. Key word search: NetApp Select bundles.

4. System Requirements

NetApp Select software bundles are available on FAS2000, FAS3100, and V-3100.

5. Product Information

SnapManager for Oracle®					X	
SnapManager for SAP®					X	
SnapManager for Virtual Infrastructure					X	X
SnapDrive® (Windows® or UNIX®)					X	X
Single Mailbox Recovery					X	
NetApp DSM					X	X

¹ Included at no charge in all systems sold via NetApp Select.

² Server Pack is a subset of Application Pack.

³ Included where applicable (e.g., FAS2050 systems).

⁴ Add-node functionality is included in the pack. Server software is available via a separate SKU.

Note: Nonconfigured SW Packs do not have the "-C." For example, an existing FAS2000 customer who wishes to purchase FlexClone for his/her system would buy the Advanced Pack, and would do so via the Add SW catalog. The item ordered would be "SW-Txx-Advanced-Pack."

⁵ As part of the Application Pack, SMBR will have a license for 1,500 Exchange mailboxes.

The new part numbers will be available to quote in the May 2009 Quote Tool release. Go to the [Field Portal](#) for the full list of new and updated product bulletins and documents.

Software Subscription Plans

SSP is available for all software available in NetApp Select bundles.

Downloading

For downloading software go to [NOW™ Download Software](#).

Product Availability

All NetApp Select software bundles will be available to quote in the May 2009 release of the Quote Tool.

6. Regulatory Compliance

Products need to be validated against the NetApp Safety/EMI Regulatory Compliance List prior to order submission. This is required to make sure that products are being sold only in the countries in which NetApp has received regulatory compliance certification.

7. Warranty and Service

Standard software warranty and services apply.

8. Additional Information

Contact Information: Please contact your NetApp sales or channel partner representative with questions concerning this bulletin.
