1. Summary

The Professional Services organization announces the availability of an updated RDS+ SnapManager for Exchange 6.0 Implementation Service.

The refreshed service incorporates all of the new features now available with SME 6.0 and Exchange 2010. This RDS+ service has also updated the Add-on Service Components that are offered with the “base” implementation service.

2. What's New?

The base SME 6.0 Implementation Service now incorporates the new database availability groups (DAG) feature. In addition, the following new optional Add-on Service Components are now available: Add additional node to DAG, DR via SnapMirror® and SnapVault® with Protection Manager integration.

3. Sales and Customer-Ready Tools (Training, SE, Customer Presentations, Datasheets, Sales Guides)

6. Regulatory Compliance

Products need to be validated against the NetApp Safety/EMI Regulatory Compliance List prior to order submission. This is required to ensure that products are being sold only in the countries in which NetApp has received regulatory compliance certification. This information can be found in the Field Portal by searching under "Compliance, Policies and Procedures" or following the links below:

- [RoHS Compliance](#)
- [Safety/EMI Regulatory Compliance \(XLS\)](#)
- [WEEE Compliance](#)

7. Warranty and Service
