1. Summary

This product bulletin announces the availability of the new Homogeneous Data Migration Service from the Professional Services (PS) organization. This service is a “refresh” of the previously available FlexVol® Service and has been renamed to more accurately reflect what the service delivers.

2. What's New

The Homogeneous Data Migration Service targets customers who have requirements for the following:

- Move unstructured data at the volume, qtree, or LUN data set level
- Move database files (such as Oracle®, ClearCase, and SQL)
- Move and/or update all storage system settings related to the access of data from the new system (including CIFS, NFS, iSCSI, FCP, and so on)

3. Sales Tools (Sales Guides, Training Presentations, SE Presentations)

The Homogeneous Data Migration Service is an integral component for customers who have a need to upgrade from their existing R100/150 systems to current NetApp platform offerings. In addition, this service is ideal for any customer who has a need to migrate data between NetApp systems. Using NetApp storage professionals minimizes the risk, accelerates time to

production, and enhances storage infrastructure optimization for customer deployments.

4. Customer-Ready Tools (Customer Presentations, Data Sheets)

N/A

5. System Requirements

N/A

6. Product Information

The Homogeneous Data Migration Service is a custom firm fixed priced (CFFP) service that is delivered only using statement of work (SOW).
