

Product Bulletin

NetApp Select Bundles

Revision History	Summary of Changes
August 2007	Initial Version
September 2007	Additional FAS2000 bundles available
November 2007	SMBR software option introduction
December 2007	FAS2000 internal SATA bundles are available Disaster Recovery software bundles are updated to include SnapRestore® by default when SnapManager® is selected
February 2008	Add-on software bundles available Server-based add-on software bundles for SnapManager and SnapDrive® are available
March 2008	New Rapid Deployment Services (RDS) offerings for NetApp Select™ available Oracle® for Windows® for Disaster Recovery and Backup and Recovery bundles available
August 2008	Add SMVI Bundles Operations Manager and Protection Manager are now available for ordering within the NetApp Select CP

This product bulletin informs NetApp sales and NetApp partners about new or changed NetApp® products or services.

1. Summary

This product bulletin announces new NetApp Select hardware and software bundles available for sale worldwide exclusively through channel partners.

NetApp Select is designed to provide simplified ordering and best-priced solutions that include controllers, protocols, storage, software, and software subscription. Based on best practices, these comprehensive solutions include all the software required to easily target customer needs for backups, recovery, and disaster protection.

NetApp Select bundles deliver the following benefits:

- Best pricing: NetApp Select assures the best price for a given solution.
- Ease of ordering: Configuring a FAS system is easy when you follow “NetApp Select” through the configuration process.
- Exclusive application solution software bundles: NetApp Select offers special application solution software bundles to make sure that the software required for a specific application is available at the best price.

All NetApp Select bundles are available worldwide. Pricing PVRs will be considered in competitive situations.

2. What’s New?

NetApp Select offers flexible fabric-attached storage (FAS) system bundles. To create a complete system bundle, one can select from multiple hardware bundles and multiple software bundles.

NetApp Select Hardware Bundles

NetApp Select hardware bundles are available for both FAS2000 and FAS3000 systems. The hardware bundles available include the following:

FAS2020 dual controller configurations with:

- Zero internal drives
- 12 x 144GB internal SAS
- 12 x 300GB internal SAS
- 3.5TB external SATA
- 12 x 250GB internal SATA
- 20 x 250GB internal SATA
- 12 x 500GB internal SATA
- 20 x 500GB internal SATA
- 12 x 750GB internal SATA
- 20 x 750GB internal SATA
- 6 x 1TB internal SATA
- 12 x 1TB internal SATA

FAS2020 single controller configurations with:

- Zero internal drives
- 12 x 144GB internal SAS
- 6 x 300GB internal SAS
- 12 x 300GB internal SAS
- 1.75TB external SATA
- 3.5TB external SATA
- 6 x 250GB internal SATA
- 12 x 250GB internal SATA
- 6 x 500GB internal SATA
- 12 x 500GB internal SATA
- 6 x 750GB internal SATA
- 12 x 750GB internal SATA
- 6 x 1TB internal SATA
- 12 x 1TB internal SATA

FAS2050 dual controller configurations with:

- Zero internal drives

- 12 x 144GB internal SAS
- 12 x 300GB internal SAS
- 20 x 144GB internal SAS
- 20 x 300GB internal SAS
- 12 x 250GB internal SATA
- 20 x 250GB internal SATA
- 12 x 500GB internal SATA
- 20 x 500GB internal SATA
- 12 x 750GB internal SATA
- 20 x 750GB internal SATA
- 12 x 1TB internal SATA
- 20 x 1TB internal SATA

FAS2050 single controller configurations with:

- Zero internal drives
- 12 x 144GB internal SAS
- 12 x 300GB internal SAS
- 20 x 144GB internal SAS
- 20 x 300GB internal SAS
- 6 x 250GB internal SATA
- 12 x 250GB internal SATA
- 6 x 500GB internal SATA
- 12 x 500GB internal SATA
- 6 x 750GB internal SATA
- 12 x 750GB internal SATA
- 12 x 1TB internal SATA
- 20 x 1TB internal SATA

All FAS2000 bundles include iSCSI. Additional protocols are available a la carte.

Four bundles exist for the FAS3020, the FAS3040, and the FAS3070:

- Dual controller FAS system with CIFS and iSCSI
- Dual controller FAS system with NFS and iSCSI
- Dual controller FAS system with CIFS and NFS and iSCSI
- Dual controller FAS system with FCP and iSCSI

To order a unified system, CIFS and/or NFS can be added a la carte to the FCP + iSCSI configurations. In addition, all a la carte storage, cards, additional shelves, cabinets, and other available hardware are available with these bundles.

NetApp Select Software Bundles

There are five software bundles available via NetApp Select:

- Disaster Recovery
- Site/Campus Protection
- Backup and Recovery
- Disk-to-Disk (D2D) Backup

NetApp Select software bundles can be ordered both as part of a new FAS system purchase or as add-ons to FAS systems already purchased.

There are three flavors of **Disaster Recovery** software bundles:

- **FAS:** FAS bundles include software for disaster recovery of a FAS system. The FAS (IP storage) bundles are for use with non-FCP protocols (any combination of CIFS, NFS, and iSCSI).
- **FAS to Server:** FAS to Server bundles (either Windows or UNIX®) include software for disaster recovery of servers connected to a FAS system.
- **Application:** Application bundles (for applications including Exchange, SQL Server™, SAP®, and Oracle) include software for disaster recovery of applications running on servers connected to FAS systems.

The Site/Campus Protection software bundle consists of a MetroCluster solution for disaster recovery of an on-campus building or across a site (up to 500 meters). (Note: the Site/Campus Protection bundle is not available on the FAS2000 series.)

There are three flavors of **Backup and Recovery** software bundles:

- **FAS:** FAS bundles include software for backup and recovery of a FAS system.
- **FAS to Server:** FAS to Server bundles (either Windows or UNIX) include software for backup and recovery of servers connected to a FAS system.
- **Application:** Application bundles (for applications including Exchange, SQL Server, SharePoint®, SAP, and Oracle) include software for backup and recovery of applications running on servers connected to FAS systems.

The **D2D Backup** software bundle provides disk-based backups for FAS systems (as well as servers) across the network.

In addition to the software included in each software bundle, software options are also available for some NetApp Select software bundles. The options are additional software components that can be added to your chosen NetApp Select bundle at a special price.

A la carte software and services are also available with NetApp Select bundles.

3. Sales Tools (Sales Guides, Training Presentations, SE Presentations)

For additional NetApp Select information and resources, refer to NetApp Select on PartnerCenter.

4. Customer-Ready Tools (Customer Presentations, Datasheets)

For additional NetApp Select information and resources, refer to NetApp Select on PartnerCenter.

Server-Based SnapManager and SnapDrive Bundles

Customers who only need to manage a few servers (four or less) connected to a FAS system might want to choose the server-based SnapManager and SnapDrive bundles available for Exchange, SQL Server, SharePoint, SAP, and Oracle. These bundles provide best prices for managing an application on a small number of servers.

These NetApp Select RDS offerings provide RDS services at a discounted price for any level of capacity purchased on the NetApp Select FAS system.

Quoting

For detailed instructions on how to quote this product using the Quote Tool, see the Quote Tool Bulletin.

Product Availability

NetApp Select has been available in PartnerEdge since **August 2007**.

6. Regulatory Compliance

Products need to be validated against the NetApp Safety/EMI Regulatory Compliance List prior to order submission. The list is available at PartnerCenter Compliance Information. This is required to make sure that products are being sold only in the countries in which NetApp has received regulatory compliance certification.

7. Warranty and Service

Standard software warranty and services apply.

Contact information: Please contact your NetApp channel partner representative with questions concerning this bulletin.
