Online Release Notices

Note: The F630 does not support ATM.

Firmware Upgrade Requirement

Warning: [Read This Document](#)

Please read the [Firmware](#) document carefully before trying to upgrade your filer to Data ONTAP 4.0 software. You must install NetApp F220 and F330 Firmware version 1.6 to run Data ONTAP Release 4.0.

New Features in Data ONTAP Release 4.2a

- Multiple ATM NICs supported on F300 and F500 series
- ATM PVCs support on F200, F300, and F500 series
- Support for mixed storage shelves in the same system

Refer to the *Read Me First* guide for more information.

Online Documentation

Read Me First for Data ONTAP 4.2a
