Firmware Upgrade Requirement

Warning: [Read This Document](#)

Please read the [Firmware](#) document carefully before trying to upgrade your filer to Data ONTAP 4.0 software . You must install NetApp F220 and F330 Firmware version 1.6 to run Data ONTAP Release 4.0.

New Features in Data ONTAP release 4.3.3

- Fixes bug 6051.
- Enables support for Seagate's 9GB low profile disk
- A new version of FilerView, 4.3.1, is also available at this time. Early Access FilerView v4.3.1 works with Netscape 4.03.
- Data ONTAP 4.3 documentation is accurate for all versions of Data ONTAP 4.3 (4.3, 4.3.3, 4.3R3, 4.3R4, and 4.3.1, 4.3.3).

Online Documentation

After downloading the required software files, refer to the Data ONTAP 4.3.1 *Read Me First* guide for installation instructions.

- [Adobe Acrobat format](#) (211K)

Documentation Box

Additional documentation regarding Data ONTAP and other NetApp products is available in our [Knowledge Base](#).
