On-Line Release Notices

Firmware Upgrade Requirement

NetApp® F220 and F330 filers require firmware 1.6 or later to run Data ONTAP™ 4.0 software or later. If your F220 or F330 filer is running firmware earlier than version 1.6, go to the [Tools & Utilities](#) page to locate the latest firmware.

New 4-GB Drive Support

This release of the Data ONTAP software adds support for 4-GB Fujitsu Allegro 4 SCSI disks.

On-Line Documentation

After downloading the required software files, refer to the Data ONTAP 4.3.5 [Release Notes](#) document for installation instructions.
